Quarterly Profit and Loss Summary8

Profit and Loss - Administration (Management & General)12

Profit and Loss - Fundraising14

Profit and Loss - All Programs16

Profit and Loss - Community Engagement and Development18

Profit and Loss - Curriculum Development and Maintenance.....20

Profit and Loss - Instructor Training22

Profit and Loss - Member Organization Engagement and Development.....24

Profit and Loss - Workshops26

Profit and Loss - The Carpentries28

Notes & Definitions

Programs & Supporting Services

The purpose of this section is to define our programs and supporting services.

Programs - The activities that fulfill The Carpentries mission and also directly impact and support our community. These are divided into the following classifications: Community Engagement and Development, Curriculum Development and Maintenance, Instructor Training, Member Organisation Engagement and Development, and Workshops.

Supporting Services - Activities that support the overall mission of The Carpentries, but no specific program and are divided into two classifications

- Administration (Management & General) - refers to the activities that are not identifiable with a single program, but that are indispensable to all programs and to our overall operations. These often include oversight (Executive Council), business administration, financial administration (budgeting, accounting and record keeping), fiscal sponsorship, and the overall management of The Carpentries.
- Fundraising - refers to activities involved in securing funding, services, materials, facilities, other assets or time. These often include meeting with or contacting potential donors, and writing grants or contribution solicitations.

Accounting Practices

Accounting Practices

The purpose of this section is to summarise, in writing, the methods and procedures used to allocate income and expenses to programs and supporting services.

Income Allocations

All income was attributed to the area where the expenses to bring in that income were incurred. For example, grants are allocated to fundraising since fundraising efforts (soliciting and building relationships with the organisation, writing grants, etc.) resulted in the grant income. Similarly, while memberships consist of workshop and instructor training benefits, the efforts to engage and build relationships with potential member organisations are primarily supported by the Member Organisation Engagement and Development program. Therefore, membership income has been allocated 100% to the Member Organisation Engagement and Development program.

Expense Allocations

There are two types of expenses: direct and indirect. Direct expenses are those expenses that only involve one program or supporting service, and as a result can be directly allocated to the associated program or supporting service. For example, subscription expenses for community mailing lists are allocated to the Community Engagement and Development program. Conversely, indirect expenses are those expenses that are generated for common or joint objectives and cannot be allocated to one program or supporting service.

Indirect expenses often support multiple programs, and so these expenses need to be divided based on the amount of support they provide to each program or supporting service. Allocating portions of indirect expenses to the programs they support provides a full picture of the expenses needed to financially support a program. The approach used to allocate indirect costs to either programs or supporting services is as follows:

- Dues and Subscriptions (i.e., Amazon Web Services, Topic Box, RackSpace, Typeform, SurveyMonkey, MailChimp) - Allocated to programs based on an estimate of how much each program utilises the subscription. For example, we utilise an email based customer support platform (HelpScout) to communicate with The Carpentries Community through four shared mailboxes. Thus, the cost of this HelpScout subscription was allocated evenly among the four programs those mailboxes support (25% to each program).
- Personnel – This category includes salary and benefit expenses for the Core Team, which are allocated to programs based on the percentage of time each team member spent supporting a program during the fiscal year. For example, if our Executive Director spent 5% of their time supporting Instructor Training, 5% of our Executive Director's salary and fringe expenses would be allocated to the Instructor Training program.
- Consultant Expenses - Allocated to programs based on the percentage of time each team member spent supporting a program during the fiscal year.
- Infrastructure, Assessment and DEI (Diversity, Equity & Inclusion) Expenses - Allocated to programs based on the percentage of time each team member spent supporting a program during the fiscal year.

Similarly, the remaining indirect expenses which benefit all programs and supporting services were allocated based on personnel effort (or the percentage of personnel time supporting each program). For example, the table below demonstrates how the percentage of total personnel effort would be used to allocate the remaining indirect expenses:

Program or Supporting Service	Total Personnel Effort (%)	Indirect Expenses Allocated to Program/Service (%)
Administration (Management & General)	25%	25%
Fundraising	5%	5%
Community Engagement and Development	20%	20%
Curriculum Development and Maintenance	10%	10%
Instructor Training	10%	10%
Member Organisation Engagement and Development	15%	15%
Workshops	15%	15%
Total	100%	100%
Total	100%	100%

Estimates

Time estimates were used to allocate personnel time to programs. The Carpentries began using job plans in 2018 to plan and track how each team member is spending their time. (For more information please see this blog post on job plans: <https://carpentries.org/blog/2019/02/projects-teams-job-plans/>)

The Core Team uses Job Plans to outline each person's major areas of responsibility (MAR) and the associated program. Each month team members update their job plan with an estimate of the percent time spent supporting each MAR. At the end of the year we use the job plans to calculate the percentage of time spent supporting each program. Our job plans provide a good estimate of how the Core Team's time has been used to support each program and is the basis for allocating team expenses to programs.

Key Metrics

The following formulas were used to calculate the Key Metrics in this report:

- Overhead Ratio = Total Administration Expenses / Total Expenses
- Operating Reliance = Total Program Income / Total Program Expenses

- Self-Sufficiency Ratio = Total Program Income / Total Non-Grant Related Expenses*

*Non-grant related expenses are the expenses for operations or activities outside the goals of a grant.

Disclaimers & Acknowledgements

Disclaimers & Acknowledgements

Please note that some of the data from previous years may appear different than in a previous report, as all data analysis has been updated to align with current accounting practices for expense and income allocations. We also acknowledge that our use of Income and Net Income differs from the academic definition of these terms. In the financial report, the term 'Income', is used in place of the business term 'Revenue', to refer to the total amount of money received for products and services. Similarly, 'Net Income', is used in place of the business term 'Income', to refer to the net profit (or what remains after expenses and taxes are subtracted from 'Revenue').

Quarterly Profit and Loss Summary
